## SALE MANAGER'S COMMENTS

Dear Fellow Shorthorn and Polled Shorthorn Breeders:

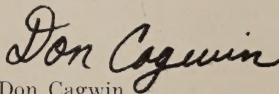

Let me take this opportunity to invite you to attend the Bob-Lee Inc. Sale on October 15th. As you know, the Bob-Lee herd is the result of combining four of the nation's leading shorthorn herds and the best possible herd bulls which could be found. It has been most satisfying to see the progress made at Bob-Lee, Inc. The cattle were very well accepted in the 1972 Sale. It was the top production sale in the United States. However, the offering presented this year far surpasses any previous offering.

You will find some exceptional bulls, bulls that we are sure we will be hearing from in the future. Also, the female offering is the kind of foundation females you very seldom have an opportunity to buy.

I realize that many of these statements may be difficult to back up, but I would urge you to attend the sale to see for yourselves.

Looking forward to seeing you on October 15th,

Cordially,

A handwritten signature in dark ink, reading "Don Cagwin". The signature is written in a cursive, flowing style with a large initial "D".

Don Cagwin,  
Sale Manager

**KINNABER LEADER 6th x** — The bull who has done it all. As you know, he has sired both National Champions last year. It certainly appears he will be Sire of the Year, so there is no doubt about his ability to produce show ring leaders. However, we feel his greatest asset is in the great foundation females he has left at Bob-Lee. Also, the results now coming in from his sons working in other herds prove to us his ability to transmit his traits. There are many females carrying his service in this sale, as well as sons and daughters selling.

**KENMAR RANSOM 32Z** — The undefeated show bull of the 70 - 71 season; was the first bull ever to be Grand Champion at the American Royal, International and Western Livestock Shows. He weighs well over a ton. Tank probably caused more conversation between cattlemen in his show career than any bull ever shown. Many wondered if he will breed on. The first set of calves are now yearlings, and when this catalog was written, they had been shown once at the Iowa State Fair where his son and Junior Herd Sire Mill Brook Ransom 146x was named Grand Champion Bull and also, his get won the Get-of-Sire Class. We feel there are many young calves on the ground who show even greater potential. He is certain to be a major force in the Bob-Lee breeding program. The polled sons of Tank that are in this sale will be very valuable outcross herd sires for the Polled Shorthorn industry.

He is one of the tallest, cleanest Polled Short-horn bulls we could find. He has left a set of replacement females that are going to be a very valuable herd addition at Bob-Lee, Inc. For the cowman who is looking for the herd sire that is a little taller and cleaner, we recommend the progeny of this bull.

## COMMENTS FROM KINNABER

Leader 21st x and Leader 9th x were the only bulls we ever used in our breeding program more than one year. Time is so short in achieving one's goals, so we always felt we must get maximum results in order to do the best job possible in breeding better Shorthorns.

We used many good bulls that left some calves that are noted sires in the industry today but not since Leader 21st and Leader 9th have we used a more consistent sire than "Big Ben." His ancestors are bred by two of America's most determined cowmen, Frank Haumont and Ed. Albaugh, and from this comes a great breeding sire.

Lee Johnson talked us into selling an interest in "Big Ben" and although he might not have everything as an individual, we feel he is one of the great breeding bulls of the breed. The demand for our time in other fields has made it necessary that we felt that "Big Ben" could be used most successfully for the biggest advantage of breed improvement in what we feel is the best Shorthorn cow herd we know of, the "Green Bluff Herd." We have in cooperation with Green Bluff got some tremendous "Big Ben" calves this year and a group of cows bred back to him and so wish to keep a semen interest in Big Ben; and if he is placed in an A. I. Stud we would like to retain  $\frac{1}{2}$  the semen revenue from him. We predict his progeny will write breed history.

**WESTON BIG BEN** — from the heart of the Bob-Lee herd bull battery, a bull owned with Kinnaber Shorthorns, Souris, Manitoba. This is a bull we feel approaches the ideal in type. After much discussion this bull was offered for sale. He is sired by Martin Nold's Surprise bull and is out of a Frank Haumont Cherry cow. This is a blend that will surely produce size and quality. ~~It~~ interest and full possession sells.
